DAILY SCHEDULE INFORMATION

Notre Dame operates on an eight-day rotating schedule. This schedule consists of eight courses per semester, seven of which have contact time per school day. Students will attend morning homeroom and seven class periods daily. In an eight-day rotation, each of the eight courses will have contact time on seven days and will rotate out of the schedule, or “drop,” once. Please refer to the schedule diagram and Glossary of Terms for further details.

Glossary of Terms:

Hour

- Hour indicates the course. Hours rotate throughout the day (i.e. Hour A is Theology I, Hour B is Algebra I).
- Hours A-H
- Example: *I have hour C with Mrs. Schaefer.*

Period

- Period indicates the time slots throughout the day. Each day will consist of homeroom and periods one through seven.
- Periods 1-7
- Example: *What hour is during period five today?*

Day

- Day indicates the schedule rotation for the given school day. It also indicates which course begins the day during period one.
- Days A-H
- Example: *Day B begins with hour B.*

Drop class

- Drop class indicates which hour does not meet on a given school day. Each of the eight courses will drop out of the schedule once in an eight-day rotation.
- Hours A-H
- Example: *Friday is Day E, so hour D will drop.*

Lunch — “1st lunch” and “2nd lunch” — 1st and 2nd lunch are during period five, which is a double period designed to allot equal lunch and class time. The time allotment for both 1st and 2nd lunch is approximately the same as the other periods in the school day. Each teacher is assigned either 1st or 2nd lunch for the duration of the semester. The lunch hour the students attend is determined by the teacher they have during period five on a given school day. For example, Brother David is assigned 2nd lunch. If a student has Brother David during period five, he or she will report to class during the 1st lunch time allotment. When the bell rings to signify 2nd lunch, students in Brother David’s class will go to lunch. The opposite scenario would take place for a teacher who is assigned 1st lunch; students would first report to lunch and then go to class when the bell signifies 2nd lunch. Students will not have a specific lunch time on their class schedule as it changes daily based on the instructor.

Duration of the school day — Notre Dame’s school day begins at 7:57 a.m. and ends at 3:00 p.m. Students in A.M. Classes should report to class by 7:30 a.m.

Class Schedule Template — Following is a template for the class schedule. The days (A-H) will rotate through every eight days. The name of the day corresponds to the Hour that is first that day (ex. Day B has Hour B during Period 1, Day D has Hour D 1st, etc.). Additionally, one of the eight (8) Hours each day will drop for the day. For example, during Day A, Hour zH will drop. The next day, (Day B) Hour A will drop. The following day, (Day C) Hour B will drop, etc.). During the school year, the days will be sequential. For example, if Monday is Day E and Tuesday there are no classes (planned or unplanned), Wednesday would be Day F. The only time that the schedule resets will be at the beginning of a semester.
